SYNOPSIS

The Summit is a full day event bringing together construction industry players to gain new insights of adopting Building Information Modelling (BIM) in practice.

As the complexity and speed of the industry continues to grow, BIM becomes an imminent need for the Architecture, Engineering, Construction & Operations (AECO) players to adopt in meeting future challenges of this digital era.

Come and learn from our esteemed speakers who will be sharing their experience and know-how in this exciting world of BIM technology.
