Organised By

Anggie Goh Product Marketing Manager

- Spanning over *two decades in the realm of building materials*, dedicated the career to the world of performance ceilings, nurtured a deep understanding of the nuances and complexities of acoustic solutions.
- Working in close collaboration with respected industry players, played a part in projects that *exemplify the seamless melding of form and function*.
- Take pride in providing *acoustic ceiling and wall solutions*, enhancing the acoustic comfort of existing spaces from conceptualization and design to precise specification, hands-on installation and meticulous maintenance, gaining valuable insights at each juncture.
- Drive *innovation and excellence* in the realm of acoustic ceiling materials. Fueled by desire to continually elevate the quality of acoustic solutions and provide architects with a platform on which their imaginative ideas can flourish.

SESSION #1

Harmonizing Acoustic Excellence and Sustainable Aesthetics

Acoustic Mastery: Uncover the formula behind designing spaces that *exude auditory comfort* and *enhance human well-being*.

Sustainable Sensibilities: Explore the fusion of eco-consciousness and architectural brilliance, creating *harmony between design and nature*.

Innovations in Acoustics: Delve into cutting-edge materials and technologies that *redefine* the way we *experience sound* within spaces.

Future-forward Vision: Peek into the *horizon of architectural acoustics*, where sustainability and innovation intertwine seamlessly.
