UNCHARTED / UNCHARTERED

Good designs often come in the face of challenges, some of which we seek out: in new realms of thinking, in unexplored territories beyond the comfort zones of our usual practice. Our education has taught us to think broadly and critically, not just to provide innovative solutions to problems but also to envision and realize better futures. This forum seeks to discuss projects that are a result of cross-pollination practices across borders, cultures and thinking.

SPEAKERS

NAREIN PERERA | SRI LANKA
NAREIN PERERA ARCHITECTS
