

JOTUN TECHNICAL PAINT SCHOOL & SINGLE-SOURCE BUILDING SOLUTIONS

BY JOTUN PAINTS SDN BHD

TOPICS & SPEAKERS

INTRODUCTION TO JOTUN PAINTS (MALAYSIA) SDN. BHD. & OVERVIEW OF KEY PRODUCTS

DARREN TAN, Area Sales Manager – Jotun Decorative Project and Retail Sales, based in Kuching, Sarawak. With 10 years of experience in the paint and coatings industry, he specialises in project specification, technical product solutions, project execution and retail sales. Darren works closely with architects, consultants, developers, industry professionals and retail dealers to provide suitable paint solutions and support projects from specification through to completion.

COATING SOLUTIONS FOR FIRE AND CORROSION PROTECTION OF STEEL STRUCTURES

CHARMAINE HWANG, Senior Sales Executive – Infrastructure, specializing in the Marine & Protective Coatings division. She holds a Bachelor of Chemical Engineering (Honours) from Monash University, Australia, providing her with a strong technical foundation in coating technologies.

With extensive experience in protective and fire protection coatings, Charmaine specializes in steel protection, passive fire protection, concrete protection and floor coating systems. She has been involved in managing high-profile projects and works closely with industry professionals to deliver coating solutions that meet demanding requirements for safety, performance, quality and durability.

SURFACE PREPARATION, COMMON CAUSE OF PAINT FAILURES IN BUILDING CONSTRUCTION & SOLUTION

LEE WENG SOON, Senior Executive - Technical Service (Decorative), graduated with a Bachelor of Engineering (Hons) in Chemical Engineering from Universiti Teknologi PETRONAS (UTP) in 2016. He holds professional certifications including AMPP Concrete Coatings Inspector (CCII), Concrete Coating Application Specialist (CCAS), Coating Inspector Level 1 (CIP1), Infrared Thermographer Level 1 (IRT Level 1) and Remote Pilot Certificate of Competency-Basic (RCoC-B).

At Jotun, his expertise covers coating system application, product trials, site troubleshooting, technical consultation, surface and application assessment, technical training and Paint School programmes. He works closely with customers and industry professionals to address coating challenges and provide practical technical solutions, with a strong focus on proper coating application, inspection and achieving durable, reliable and long-term coating performance.

POWDER COATING: BRINGING BEAUTY, DURABILITY, AND SUSTAINABILITY TOGETHER FOR STRUCTURES THAT STAND THE TEST OF TIME

SHANNI HO, Specification Manager – Powder, she holds a Master Degree of Business Administration from University of Sunderland. A seasoned powder coating professional with 13 years of experience in the industry, specializing in architectural powder coatings and dedicated to delivering high performance, sustainable and innovative powder coating solutions for the built environment. Proven track record in specification sales, working closely with architects, consultants, developers and fabricators to provide technical support ensuring optimal coating solutions and compliance with industry requirements.

AGENDA

08.30	am	Registration
09.00	am	INTRODUCTION TO JOTUN PAINTS (MALAYSIA) SDN. BHD. & OVERVIEW OF KEY PRODUCTS
09.20	am	COATING SOLUTIONS FOR FIRE AND CORROSION PROTECTION OF STEEL STRUCTURES
10.00	am	SURFACE PREPARATION, COMMON CAUSE OF PAINT FAILURES IN BUILDING CONSTRUCTION & SOLUTION
10.30	am	Coffee Break
11.00	am	POWDER COATING: BRINGING BEAUTY, DURABILITY, AND SUSTAINABILITY TOGETHER FOR STRUCTURES THAT STAND THE TEST OF TIME
11.40	am	Q & A
12.30	pm	Let's Talk Design with ARKITEK KDI THIN LINE BETWEEN CULTURE AND IDENTITY
01.30	pm	Q & A End of Session & Lunch

LET’S TALK DESIGN:
**THIN LINE BETWEEN
CULTURE AND IDENTITY**

BY *ARKITEK KDI*

INSIGHT & SPEAKERS

Architecture is deeply rooted in the identity of a place. Understanding where a building comes from begins with understanding its origins — its history, culture, people, and the stories that have shaped its surroundings. These elements form an intangible identity that architecture has the ability to translate into something tangible.

The language of architecture is often expressed through its appearance: colour, texture, materiality, proportion, and the relationship between built form and its context. These seemingly subtle choices can evoke a sense of place, allowing architecture to reflect the character and memory of its surroundings without necessarily replicating the past.

At the heart of this lies the relationship between form and function. While form follows function remains a fundamental principle of architecture, the two should not exist independently. Function gives purpose to form, while form gives identity to function. When carefully balanced, architecture can respond to its practical needs while expressing the culture and character of its place.

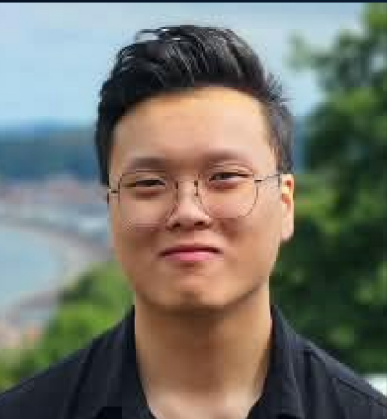

The line between culture and identity is therefore thin — and architecture occupies that line, translating memory, purpose, and place into a physical experience.

AR. AHMAD RAZI

Born in Kuching and educated at IIUM, **AR. AHMAD RAZI** has spent the past 18 years building his experience in architectural design and project management across a wide range of projects and professional environments.

His practice spans diverse project types and scales, with an approach shaped by design thinking, technical coordination and the realities of project delivery. Currently with Arkitek KDI, Razi continues to develop his practice through a growing body of work across diverse projects.

LING KUOK FUNG

Born in Sibü and educated at Liverpool John Moores University for both his undergraduate and postgraduate studies, **LING KUOK FUNG** gained valuable working experience in the UK and developed a strong passion for the implementation of Building Information Modelling (BIM) within the architectural industry.

Currently practising with Arkitek KDI, Ling continues to develop his professional expertise through hands-on experience in BIM implementation, architectural coordination, and site coordination.
