PGB ALAN NELSON ALFERED HALUP

Before joining the Fire and Rescue Department of Malaysia (FRDM), he worked for six years with one of Sarawak's leading plywood manufacturing companies in Bintulu, Sarawak. As a Quality Control Superintendent, he gained extensive experience in quality control, quality assurance, research and development (R&D), and auditing activities. His expertise includes compliance with various international and industry standards

His experience in both the Firefighting and Rescue Operations Division and the Fire Safety Division at the FRDM Headquarters, Sarawak State, has provided him with valuable hands-on experience in carrying out the role of the Authority Having Jurisdiction (AHJ). His responsibilities include reviewing architectural and mechanical & electrical (M&E) drawings, conducting building inspections for the issuance of Supporting Letters for Occupational Permits (OP), and participating in firefighting and rescue operations. In addition, he has been directly involved in the amendment of the new Sarawak Building Ordinance, which has been harmonized and synchronized with the Uniform Building By-Laws (Amendment) 2021, prior to its submission to the Ministry of Public Health, Housing and Local Government Sarawak.

MANAGING DIRECTOR
